## **Ancient British kings and other significant Britons**

Here are the names of over 70 people who ruled in Britain c.60 BC-AD 85. Two thirds are known solely from coins, which proves the pivotal importance of coins in helping to piece together the complex politics of pre-Roman Britain. Names on coins are **Red**. First compiled by Chris Rudd in 2010, this unique king list includes a dozen groups of unknown rulers who minted money, such as the 'Kings of Herts'.
